A LITTLE ABOUT US

The Michael Magro Foundation, a 501(c)3 non-profit organization, was established in January 2005 to honor Mike's life.

The efforts of the Foundation started with the pediatric cancer patients and their families at the Cancer Center for Kids at NYU Winthrop-University Hospital, as well as other NYU Winthrop pediatric specialties where the treatment of chronic diseases is ongoing. That is where Mike was treated for his leukemia.

The Magro Family – Paul, Marc & Terrie

The mission of the Michael Magro Foundation is to better the lives of children with cancer, pediatric cancer survivors, and their families, as well as other chronic pediatric illnesses.

We work each day to help families meet the complex issues of care by educating patients, families, teachers, physicians, and communities about pediatric cancer care and long-term treatment effects.

We touch the lives of hundreds each year. We enhance the health and well-being of our pediatric patients, provide support for children with cancer and other chronic illnesses, and help families navigate a stressful and turbulent time in their lives.
